Earthentree

Earthentree has a very simple aim. Their "natural wooden toys are not just that. They are works of art, made from eco friendly materials to create safe toys that have a great story to tell. We believe in keeping our costumers informed and knowledgeable, while making these toys fun and educational for children."

During this era in our life the most important feature of a toy (at least to parents) is making sure the toy is lead free. Great news -

Earthentree toys are lead free! Their products are made with excellence. We had the opportunity to play with the Peppy Five. I loved the vibrant colors and the smooth design of this toy. I also like the fact that it is educational, is not bulky and doesn't take batteries!

Earthentree is offering a 10% discount on all their products when you enter GREEN08 during checkout.
