Here is a great little stocking stuffer for the infant on your holiday shopping list. Handcrafted from wood and dyed a deep and appealing red with all natural vegetable dyes, this little egg shaker is sure to delight. Babies will enjoy exploring the wonderful sounds that this shaker makes. It is designed for babies age 6 months and up. Older children will no doubt enjoy making music with this toy as well.

Each shaker is made by Channapatna artisans in India. Earthentree Toys donates a percentage of their profits to support these artisans. You can purchase one of these shakers for a very reasonable \$6 at [Chulamama.com](#).
